By way of explanation. Attorney E. L. Darble, in presenting to the special borough meeting a resolution providing for an appropriation of \$56 to meet the cost of the Armistice day celebration stated that the meeting could not be held prior to Monday because of inability to give the necessary legal notice sufficiently early to permit of so doing. The resolution was passed without opposition.

It will be remembered that dealers handling Jamaica ginger have a permit to do so from the state. Unless it can be established in court that they are selling the ginger for beverage purposes, and this is a difficult thing to do, they are immune from presecution at least that opinion is held by many and has been sustained by courts in this this and other states.

The jakey trade seems to have grown to very surprising proportions all through this territory. Many dealers keep it in stock had many people drink it.
